

Responsible Steps Program Information*

Current 4/1/26

[Link to Authorization Forms for all drugs in the Responsible Steps Program](#)
At the following page, search for the document matching the therapeutic category of the drug
(example for Cymbalta, select the Antidepressants document)

Therapeutic Category	Drugs Included in Program (Target Drug)	Prerequisite Drugs
Central Nervous System		
Antidepressants	Aplenzin, Bupropion 450 mg XL (authorized generic for Forfivo XL), Celexa, Citalopram 30 mg capsule, Desvenlafaxine ER, Effexor XR, Escitalopram 15 mg capsule, Exxua, Fetzima, Fluoxetine 60 mg, Fluoxetine 90 mg weekly, Forfivo XL, Lexapro, Paroxetine oral suspension, Paxil, Paxil CR, Pristiq, Prozac, Remeron, Remeron SolTab, Sertraline capsules, Trintellix, Venlafaxine ER 112.5 mg tablet, Viibryd, Wellbutrin SR, Wellbutrin XL, Zoloft	Previous use of a generic version of ANY of the following: bupropion, citalopram, desvenlafaxine succinate ER (generic Pristiq), duloxetine, escitalopram (tablets, solution), fluoxetine, fluvoxamine, mirtazapine, paroxetine, sertraline, venlafaxine, venlafaxine ER or vilazodone
	Auvelity	Previous use of two or more* generic versions of bupropion, citalopram, desvenlafaxine succinate ER (generic Pristiq), duloxetine, escitalopram (tablets, solution), fluoxetine, fluvoxamine, mirtazapine, paroxetine, sertraline, venlafaxine, venlafaxine ER, or vilazodone
	Cymbalta, Drizalma Sprinkle	Previous use of generic bupropion, citalopram, desvenlafaxine ER, duloxetine, escitalopram (tablets, solution), fluoxetine, fluvoxamine, mirtazapine, paroxetine, sertraline, trazodone, venlafaxine, venlafaxine ER, or vilazodone; OR (if for neuropathic pain) previous use of generic amitriptyline, desipramine, duloxetine, gabapentin, imipramine, or nortriptyline; OR (if for fibromyalgia) previous use of generic amitriptyline, cyclobenzaprine, desipramine, duloxetine, gabapentin, imipramine, nortriptyline, or tramadol; OR (if for chronic musculoskeletal pain) previous use of generic acetaminophen, amitriptyline, cyclobenzaprine, desipramine, duloxetine, gabapentin, imipramine, nortriptyline, NSAID (oral or topical), or tramadol
Atypical Antipsychotics	Abilify, Abilify MyCite, Fanapt, Fanapt titration pack, Geodon, Invega, Lybalvi, Opipza, Quetiapine 150 mg IR tablet, Risperdal, Risperidone 0.25 mg ODT, Saphris, Secuado, Seroquel, Seroquel XR, Symbyax, Versacloz, Zyprexa, Zyprexa Zydis	Previous use of two or more* generic versions of aripiprazole, clozapine, lurasidone, olanzapine, paliperidone, quetiapine, risperidone, or ziprasidone * Lybalvi requires only one generic

*Check member benefit documentation to determine inclusion in the Responsible Steps Program and refer to the medication guide to determine coverage status of drugs in the program. Certain drugs may be excluded from coverage for certain members. Step therapy requirements may not apply if the medication was previously approved by another health plan and documentation of a paid claim by the prior health plan is submitted. Newly marketed prescription medications may not be covered until the Pharmacy & Therapeutics Committee has had an opportunity to review the medication to determine whether the medication will be covered, and, if so, which tier will apply based on safety, efficacy, and the availability of other products within that class of medications. Refer to our [New to Market Drug List](#) for reference.

Gabapentin Extended-Release (ER)	Gabapentin once-daily (generic Gralise), Gralise, Horizant	Previous use of generic immediate-release gabapentin
Insomnia Agents	Ambien, Ambien CR, Belsomra, Dayvigo, Edluar, Intermezzo, Lunesta, Quviviq, Rozerem, Silenor, Zolpidem tartrate sublingual tablet, Zolpidem tartrate 7.5 mg capsule	Previous use of a generic non-benzodiazepine hypnotic such as eszopiclone, zaleplon, or zolpidem IR or ER tablet
Lyrica and Savella	Lyrica and pregabalin ER	Previous use of generic pregabalin IR
	Lyrica CR	Previous use of BOTH a generic version of pregabalin IR AND pregabalin ER
	Savella	Previous use of a generic version of amitriptyline, cyclobenzaprine, desipramine, duloxetine, gabapentin IR, imipramine, nortriptyline, pregabalin IR, tramadol, or venlafaxine
Triptans	almotriptan, Frova, frovatriptan, Imitrex Statdose, Imitrex, Maxalt, Maxalt-MLT, Onzetra Xsail, Relpax, sumatriptan/naproxen, Tosymra, Treximet, Zembrace Symtouch, Zolmitriptan spray, Zomig nasal spray	Previous use of ANY of the following generic triptans: eletriptan, naratriptan, rizatriptan, sumatriptan, zolmitriptan or zolmitriptan ODT
	Symbravo	Previous use of BOTH generic rizatriptan and meloxicam combination AND meloxicam in combination with ANY of the following generic triptans: eletriptan, naratriptan, sumatriptan, zolmitriptan or zolmitriptan ODT
Gastrointestinal		
Antiemetic	Ondansetron 16 mg ODT, Sancuso patch	Previous use of ANY of the following generic oral agents: granisetron tablet, ondansetron tablet, ondansetron solution, ondansetron ODT 4 mg or 8 mg
Hormones, Diabetes and Related		
Dipeptidyl-Peptidase 4 (DPP4) Inhibitors	Alogliptin (authorized generic for Nesina), Alogliptin/Metformin (authorized generic for Kazano), Alogliptin/Pioglitazone (authorized generic for Oseni), Brynovin solution, Janumet, Janumet XR, Januvia, Jentadueto, Jentadueto XR, Onglyza, Sitagliptin, Sitagliptin/Metformin, Sitagliptin/Metformin ER, Tradjenta, Zituvio, Zituvimet, Zituvimet XR	Current or previous use of brand or generic versions of insulin or metformin, alone or part of a combination product

*Check member benefit documentation to determine inclusion in the Responsible Steps Program and refer to the medication guide to determine coverage status of drugs in the program. Certain drugs may be excluded from coverage for certain members. Step therapy requirements may not apply if the medication was previously approved by another health plan and documentation of a paid claim by the prior health plan is submitted. Newly marketed prescription medications may not be covered until the Pharmacy & Therapeutics Committee has had an opportunity to review the medication to determine whether the medication will be covered, and, if so, which tier will apply based on safety, efficacy, and the availability of other products within that class of medications. Refer to our [New to Market Drug List](#) for reference.

Glucose Monitor	Dexcom G6 and G7 Systems (receiver, sensor, and transmitter), Freestyle Libre, Freestyle Libre 2 and Freestyle Libre 3 Systems (reader and sensor)	Current use of insulin or insulin combination product
Sodium-Glucose Co-Transport (SGLT) Inhibitors	Bexagliflozin, Brenzavvy, Glyxambi, Invokamet, Invokamet XR, Invokana, Qtern, Segluromet, Steglatro, Steglujan, Synjardy, Synjardy XR, Trijardy XR, Xigduo XR	Current or previous use of brand or generic versions of insulin or metformin, alone or part of a combination product
	Dapagliflozin, Farxiga, Inpefa, Jardiance	Current or previous use of brand or generic versions of insulin, metformin, ACE inhibitor, angiotensin receptor blocker (ARB), angiotensin receptor-neprilysin inhibitor (ANRI) (e.g., Entresto), If channel inhibitor (e.g., Corlanor), aldosterone antagonist, beta blocker, isosorbide dinitrate, or hydralazine alone or part of a combination product
Renal Drugs		
Phosphate Binders	Fosrenol, Renvela, Velphoro	Previous use of BOTH a non-targeted generic phosphate binder (such as calcium acetate, calcium carbonate, calcium carbonate-magnesium acetate, lanthanum carbonate, sevelamer HCl, or sevelamer carbonate) AND Auryxia
	Auryxia	Previous use of EITHER a generic iron supplement, OR a non-targeted generic calcium-containing phosphate binder (such as calcium acetate, calcium carbonate, calcium carbonate-magnesium acetate, lanthanum carbonate, sevelamer HCl, or sevelamer carbonate)
	Ferric Citrate 210 mg tablet (authorized generic of Auryxia)	Previous use of EITHER a generic iron supplement, OR a non-targeted generic calcium-containing phosphate binder (such as calcium acetate, calcium carbonate, calcium carbonate-magnesium acetate, lanthanum carbonate, sevelamer HCl, or sevelamer carbonate) AND Auryxia
Miscellaneous	Kerendia	Previous use of any product containing a sodium-glucose cotransporter-2 (SGLT2) inhibitor [such as Farxiga, Jardiance, Synjardy, Synjardy XR, Glyxambi, Trijardy XR]

*Check member benefit documentation to determine inclusion in the Responsible Steps Program and refer to the medication guide to determine coverage status of drugs in the program. Certain drugs may be excluded from coverage for certain members. Step therapy requirements may not apply if the medication was previously approved by another health plan and documentation of a paid claim by the prior health plan is submitted. Newly marketed prescription medications may not be covered until the Pharmacy & Therapeutics Committee has had an opportunity to review the medication to determine whether the medication will be covered, and, if so, which tier will apply based on safety, efficacy, and the availability of other products within that class of medications. Refer to our [New to Market Drug List](#) for reference.

Topical Drugs		
Atopic Dermatitis Agents	Elidel cream, Eucrisa ointment, pimecrolimus cream, tacrolimus ointment	Previous use of a topical corticosteroid or topical corticosteroid combination product including but not limited to ANY of the following products: betamethasone, clobetasol, desonide, desoximetasone, fluocinolone, fluocinonide, hydrocortisone, triamcinolone, diflorasone, or mometasone.
Topical Corticosteroids	<u>Super-High Potency (Group 1)</u> Betamethasone dipropionate (augmented) 0.05% gel, Cordran 4 mcg/cm ² tape, Diprolene 0.05% ointment	Previous use of two or more generic versions of ANY of the following: betamethasone dipropionate (augmented) 0.05% lotion/ointment, clobetasol propionate 0.05% cream/foam/gel/lotion/ointment/shampoo/solution/spray, fluocinonide 0.1% cream, halobetasol propionate 0.05% cream/ointment
Topical Corticosteroids	<u>High Potency (Group 2)</u> Desoximetasone 0.05% gel, HALOG 0.1% ointment/solution, Topicort 0.05% gel, Topicort 0.25% cream/ointment	Previous use of two or more generic versions of ANY of the following: betamethasone dipropionate (augmented) 0.05% cream, betamethasone dipropionate 0.05% ointment, clobetasol propionate 0.025% cream, desoximetasone 0.25% cream/ointment/spray, diflorasone diacetate 0.05% ointment, fluocinonide 0.05% cream/ointment/solution, halcinonide 0.1% cream, halcinonide 0.1% solution
Topical Corticosteroids	<u>Medium Potency (Group 4)</u> Clocortolone 0.1% cream Cloderm 0.1% cream, Kenalog 0.147 mg/gm spray, triamcinolone acetonide 0.147 mg/g spray	Previous use of two or more generic versions of ANY of the following: betamethasone dipropionate 0.05% spray, fluocinolone acetonide 0.025% ointment, flurandrenolide 0.05% ointment, hydrocortisone valerate 0.2% ointment, mometasone furoate 0.1% cream/lotion/solution, triamcinolone acetonide 0.1% cream/ointment triamcinolone acetonide 0.05% ointment

*Check member benefit documentation to determine inclusion in the Responsible Steps Program and refer to the medication guide to determine coverage status of drugs in the program. Certain drugs may be excluded from coverage for certain members. Step therapy requirements may not apply if the medication was previously approved by another health plan and documentation of a paid claim by the prior health plan is submitted. Newly marketed prescription medications may not be covered until the Pharmacy & Therapeutics Committee has had an opportunity to review the medication to determine whether the medication will be covered, and, if so, which tier will apply based on safety, efficacy, and the availability of other products within that class of medications. Refer to our [New to Market Drug List](#) for reference.

Topical Corticosteroids	<u>Lower-Mid Potency (Group 5)</u> HC Butyrate 0.1% solution/cream/ointment	Previous use of two or more generic versions of ANY of the following: betamethasone dipropionate 0.05% lotion, betamethasone valerate 0.1% cream, desonide 0.05% gel/ointment, fluocinolone acetonide 0.025% cream, fluticasone propionate 0.05% cream/lotion/ointment, hydrocortisone butyrate 0.1% lotion hydrocortisone valerate 0.2% cream, triamcinolone acetonide 0.1% lotion, triamcinolone acetonide 0.025% ointment
Topical Corticosteroids	<u>Low Potency (Group 6)</u> Alclometasone Dipropionate 0.05% ointment, Betamethasone valerate 0.1% lotion, Derma-Smoother 0.01% body oil/scalp oil, Fluocinolone acetonide 0.01% cream (NDC 00713-0223-15, 00713-0223-60 only) Triamcinolone acetonide 0.025% lotion	Previous use of two or more generic versions of ANY of the following: alclometasone dipropionate 0.05% cream, desonide 0.05% cream/lotion, fluocinolone acetonide 0.01% cream/oil/solution, triamcinolone acetonide 0.025% cream
Topical Corticosteroids	<u>Lowest Potency (Group 7)</u> Hydrocortisone 2.5% lotion	Previous use of two or more generic versions of ANY of the following: hydrocortisone 0.5% to 2.5% cream/ointment, hydrocortisone acetate 0.5% to 2.5% cream/ointment

*Check member benefit documentation to determine inclusion in the Responsible Steps Program and refer to the medication guide to determine coverage status of drugs in the program. Certain drugs may be excluded from coverage for certain members. Step therapy requirements may not apply if the medication was previously approved by another health plan and documentation of a paid claim by the prior health plan is submitted. Newly marketed prescription medications may not be covered until the Pharmacy & Therapeutics Committee has had an opportunity to review the medication to determine whether the medication will be covered, and, if so, which tier will apply based on safety, efficacy, and the availability of other products within that class of medications. Refer to our [New to Market Drug List](#) for reference.
